Disclaimer: There is no guarantee that these checklists contain every card complete to 100% accuracy. The checklists are working files that are updated each year with corrections.

ABOUT THE CHECKLISTS

Each team checklist was created for the avid collector who enjoys following their favorite team year after year. Use the checklist to organize your collection by year and manufacturer. You will have all the player's cards that played for your team including if they were all-stars, rookies, league leaders etc. Sets that are included are from all the manufacturers known to exist at the time of publishing and more are added each year.

The following explanations summarize the general practices used in creating the checklist. However, because of the differences in many card set standards, these must not be considered ironclad.

ARRANGEMENT

The sets are organized for the year entitle on the cover of this document followed by the name of the manufacturer known to produce and distribute the card set. Within each set, the cards are listed by their designated card numbers, or in the absence of card numbers, alphabetically according to the last name of the player pictured. Listed numbers found with open parentheses indicate the number does not appear on the card or is not known. Following the card number will be the players name listed on the card and then the set type. If the set is the base set, then the set type will be listed directly under the vendor header. Parallel and insert cards distributed with the base set packs, will be listed after the base set alphabetically.

SET IDENTIFICATION

While most modern cards are well identified on front, back or both, as to date and issue, such has not always been the case. In general, the back of the card is the more useful in identifying the set of origin than the front. The issuer and manufacturer will usually appear on the back. In most cases, identifying a card's general age, if not specific year of issue, can usually be accomplished by reviewing the stats or written biographies on the back of the card –or- by the year printed in the small print by the copyright at the bottom or right on the back.

TEAM IDENTIFICATION

Team names are generally placed on the cards front and back to identify the current team the player is serving on. A player is affiliated with the team name listed on the card front unless there is a notation of a trade to another team or if the team listed on the back is different from the front. Cards with team names listed differently on the back will be affiliated with the team listed. Cards without teams listed will be affiliated with the team uniform worn or pictured by the player depicted.

MINOR LEAGUE AND COLLEGIATE SETS

Player cards on minor league teams will be affiliated with the major league club that the minor league team is affiliated with for the same year. P layer cards that are pictured on collegiate teams will be affiliated with the pro team that drafts the player first or the first team to roster the player as a rookie.

PLAYER CARDS OUT OF UNIFORM

Card manufacturers currently have exclusive rights to manufacturer cards for specific sports as part of a licensing agreement. Therefore, cards may be produced that don't depict a team logo and may just be a picture of a player in normal clothing. Player cards of this type are affiliated with the current team the player is serving on or if retired, then the team the player served the most years with. Exceptions are made if a player is better known to be on a particular team.

WHAT'S INCLUDED

Each Checklist contains one selected year for one particular Franchise (e.g. 2015 Boston Red Sox). In general, a player's picture can be found on paper or cardboard in a variety of shapes and sizes and given away as a premium with the purchase of another product. Autograph cards will be listed with an AU after the players name or part of the card numbering. Errors and variations of cards can be found with a letter designator after the number. Most errors are listed with the error identified.

UNLISTED CARDS

Cards which are not listed can be submitted in writing to be included in the checklist. With hundreds of thousands of cards being produced each year, there are always some missed within sets. Because of the new cards being issued all the time, the checklist remains as an on-going challenge. Collectors are encouraged to submit corrections and omissions. **For questions and submissions, contact Russell Pahl, email – ripahl@yahoo.com.**

CHECKLISTS COST

The cost of a checklist is only \$2.99 and 4 for \$10. Each checklist may be emailed to you or at an additional \$4.99 – \$8.99 physically printed and mailed. Multiple checklists can be combined to physically shipped at a reduced cost/

Each checklist may vary in size hence the variable shipping cost.

Collectors wishing to purchase a checklist may do so at the following Web Site (www.baseballcardinventory.com), following the "Purchase Checklists Link" and making a PAYPAL transaction. Your checklist(s) will be produced and email/mailed within 24 or 36 hours respectfully.
